

# Matthew Leslie

## Full Stack Software Engineer

### PROJECTS

#### Industry Project for theScore

Collaborated with a team of developers, UX and data scientists to solve the challenge of low user engagement with the 'bet' feature on theScore app. Managed developers using GIT and delivered the final product in less than 24 hours.

#### TravelBuddy

Developed a full-stack travel planning app using TypeScript in React, Firebase for user authentication and database management, and multiple APIs. Designed wireframes using Figma and received feedback from peers on user experience. Working on a full-stack, self directed project presented challenges especially in the idea and designing areas. I used Figma to create wireframes of my app and asked peers if it looked like a good user experience. This was a challenge since I had to learn some basics of Figma and designing.

### EDUCATION

#### BrainStation | Diploma, Software Engineering

JAN 2023 - APR 2023, Toronto, ON

#### Liverpool John Moores | Bachelor of Law, LLB

JUN 2020 - SEP 2022, Liverpool, UK

### EXPERIENCE

#### Activity Coordinator | Camp RobinHood

SEP 2022 - 2022, MARKHAM, ON

- Created a fun environment for a group of 20-40 Grade 9 and 10s to try new activities.
- Ensured the safety of my group, regardless of the activity.
- Worked with other staff members to discuss

#### Videographer and Technical Support | Camp Walden

JUNE 2021 - 2022, TORONTO, ON

- Created a 45 minute video show using video I had shot around camp to show camp-wide and to the parents.
- Produced numerous shots and executed ideas throughout.
- Delegated tasks to others to ensure everything was perfect.
- Communicated with leaders and others to build a show that would encompass and help the children relive their summer.

### SKILLS

#### Front-End:

HTML5, CSS, SASS, JavaScript, React.js, DOM APIs, Typescript

#### Back-End:

Node.js, Express.js, Web API's, User Authentication, OAuth

#### Database:

MySQL

#### Deployment:

Heroku, GitHub, WebPack

#### Testing:

Jest, Enzyme

### PROFILE

I am a software engineer who is always eager to learn new skills and methods. I have grown up in the tech space and most of my hobbies revolve around technology- for example building and fixing computers.

### SOFT SKILLS

Teamwork, Communication, Problem Solving mindset, Analytical, Time Management, Adaptability, Enthusiastic.
