Matthew Leslie

Web Developer

Projects

The Score Industry Project
github.com/ngkao/industry-project
- Worked on a school hackathon project for TheScore, collaborating with a diverse team. Developed a 'demo' feature within 24 hours to enhance user engagement and retention for the 'bet' feature in TheScore's mobile app, offering educational resources and a practice betting option.

Cleaner CRA
www.npmjs.com/package/cleaner-create-react-app
- Cleaner-Create-React-App is a script that removes unnecessary files that are generated when creating a React app using create-react-app.

Work Experience

Web Developer
FLF
April 2023 - Current
- Contract Freelance Developer creating full-stack web applications for clients.
- Follow Agile methodologies.
- Working alongside a team of Software Developers and UX/UI designers to create beautiful and functional web applications.

Activity Coordinator
Camp Robinhood
Sep 2022 - Oct 2022
- Created a dynamic and engaging environment for a diverse group of 20-40 Grade 9 and 10 students, fostering their exploration of new activities and experiences.
- Prioritized the safety and well-being of camp participants throughout all activities, consistently enforcing safety guidelines and protocols.
- Collaborated effectively with fellow staff members, engaging in regular discussions and coordination to enhance the overall camp experience.

Education

Software Engineering Diploma
Brainstation
Jan 2023 - Apr 2023
